

Use your fingers of both hands to touch the same number on each side.

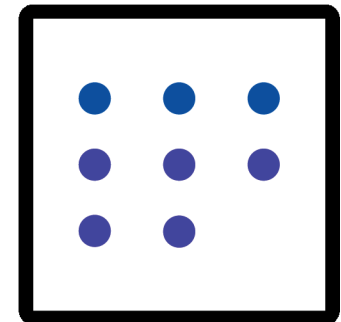

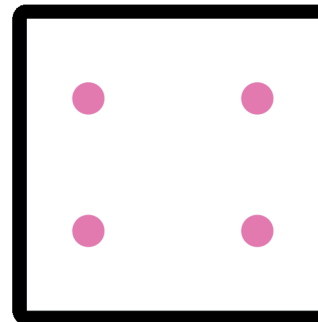

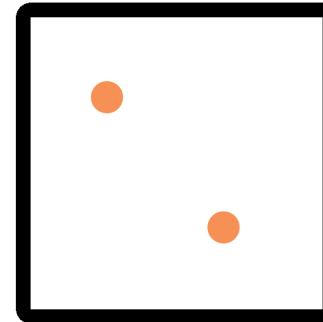

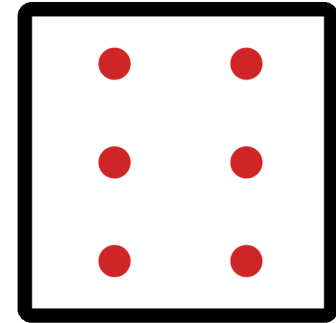

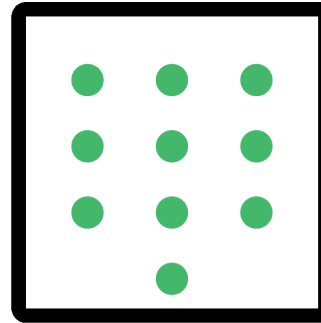

10	10	2	6	5	5
4	4	1	4	8	8
8	3	3	9	7	7
6	6	5	3	1	1
9	9	7	10	2	2

Use both pointers to tap the same dice face on either side.

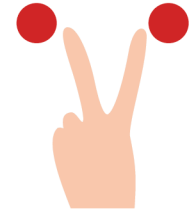

Touch the number with one hand and the matching dice with the other.

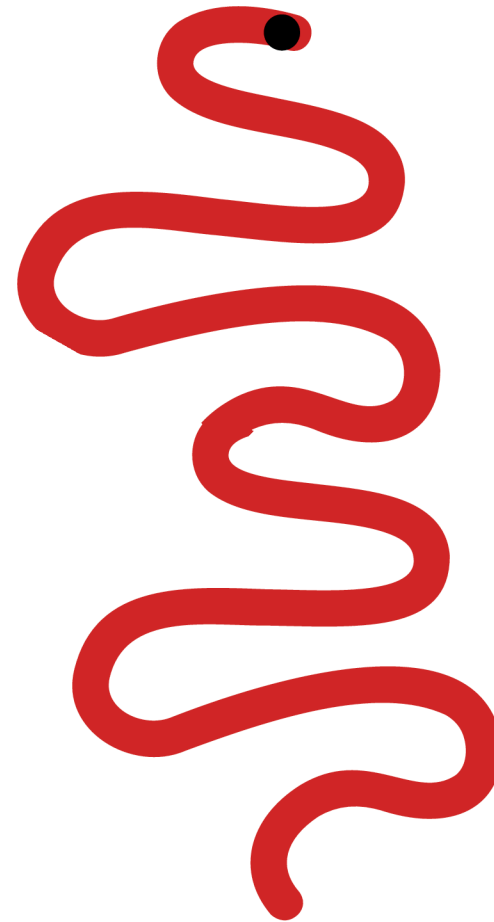

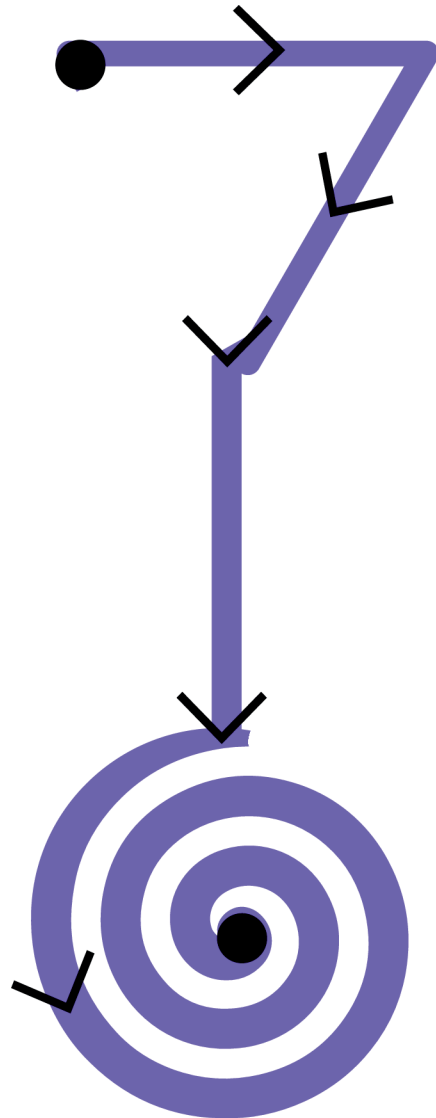

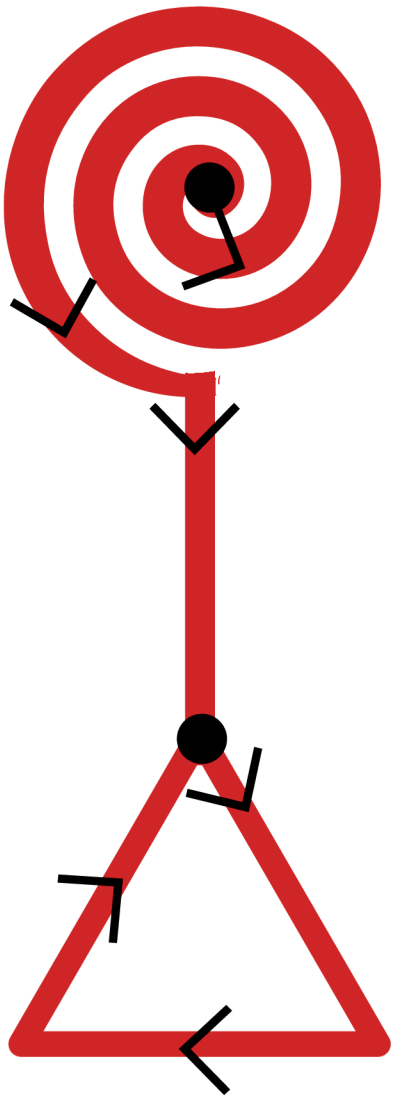

One bar = one finger. Two bars = two fingers. Tap along and switch as the bars change!

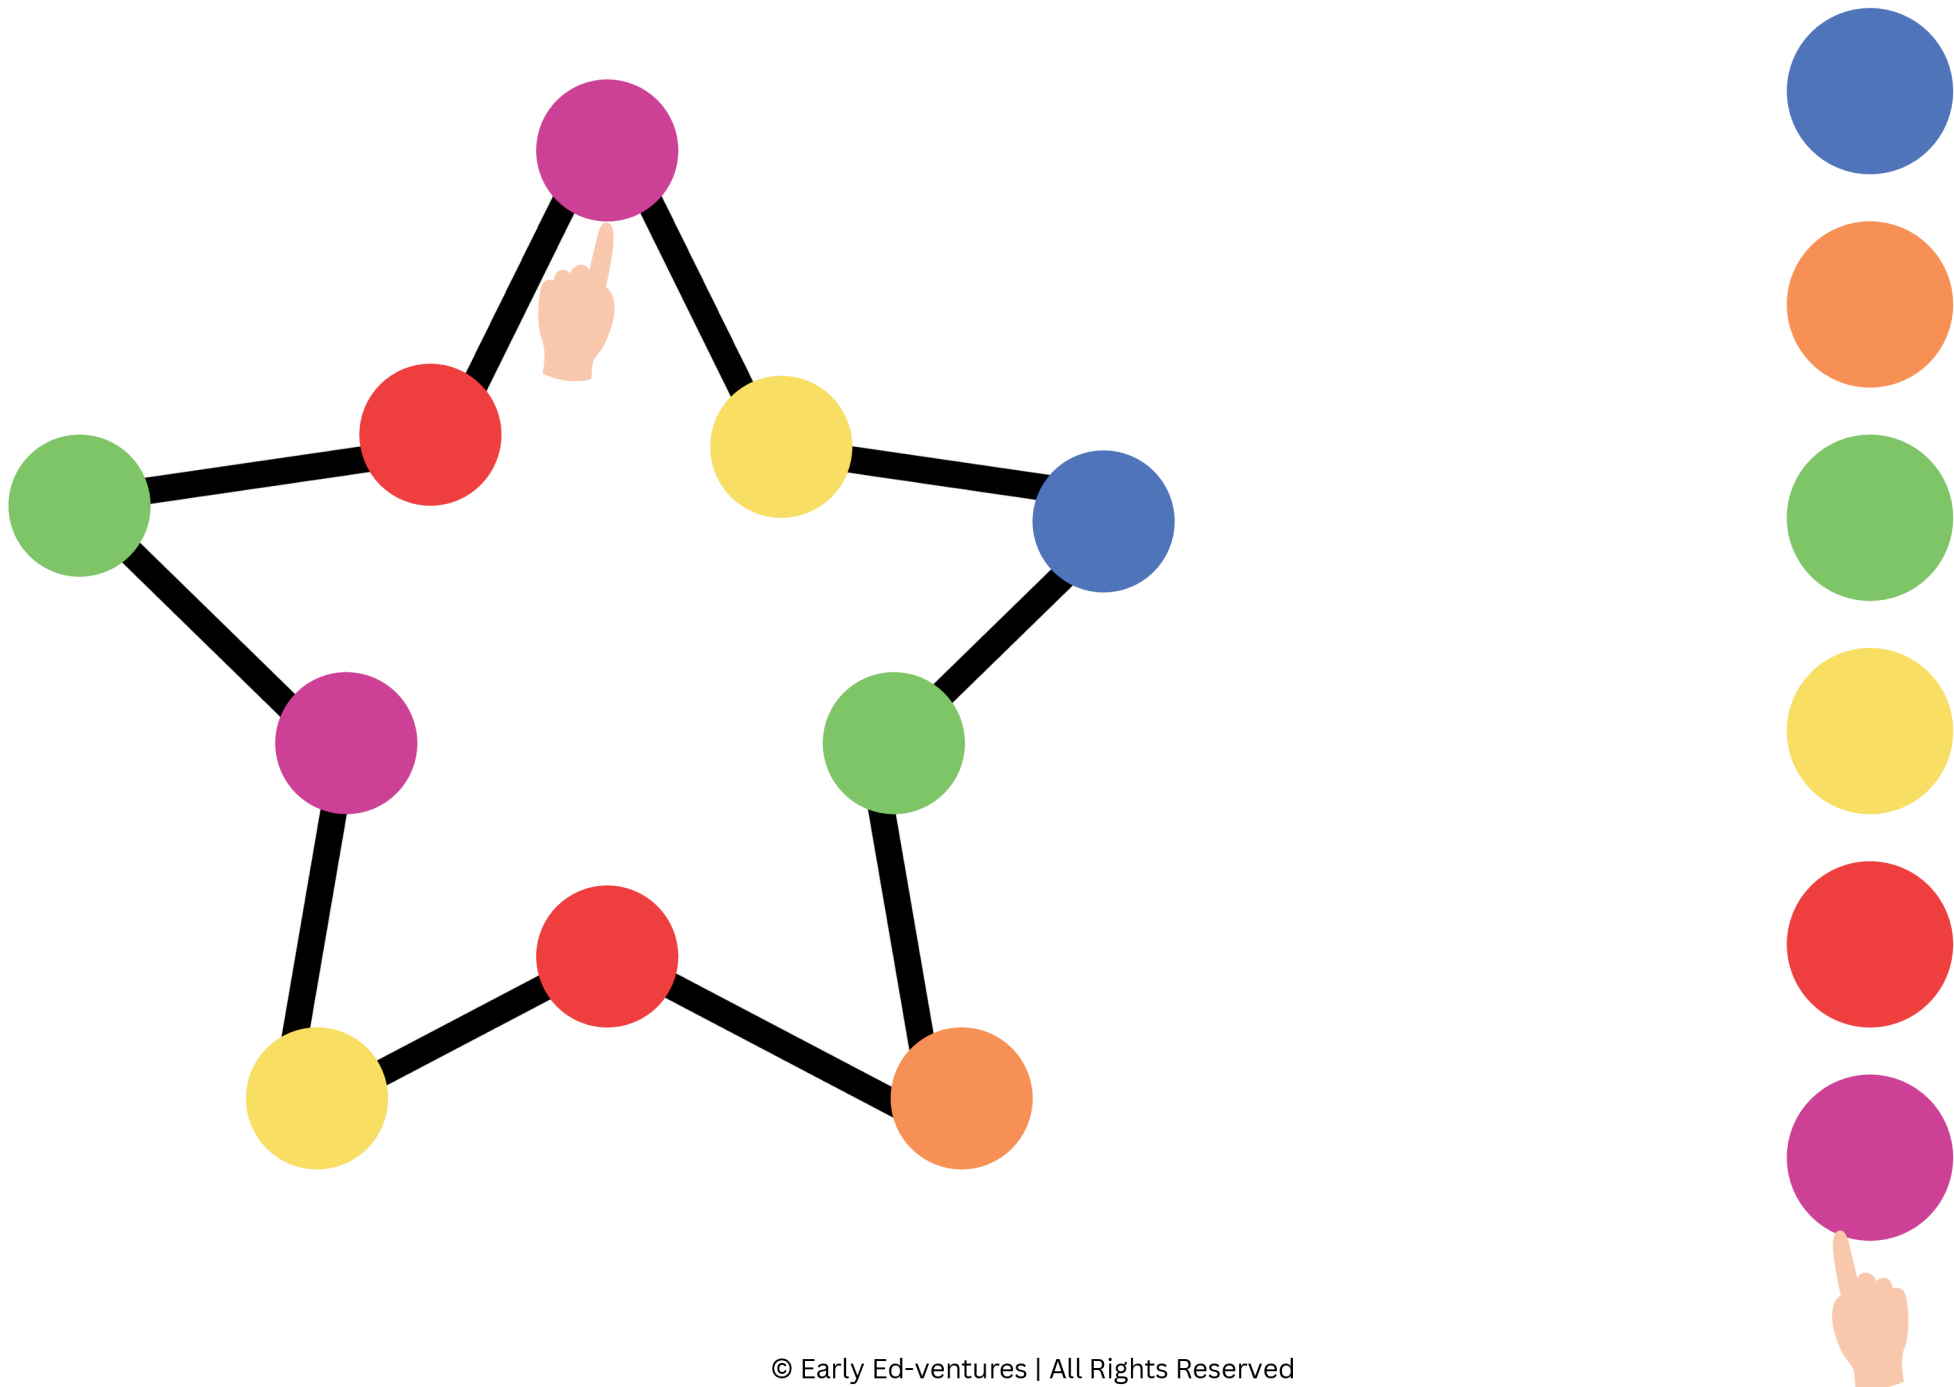

One dot? One finger! Two dots? Two fingers! Follow the pattern using both hands.

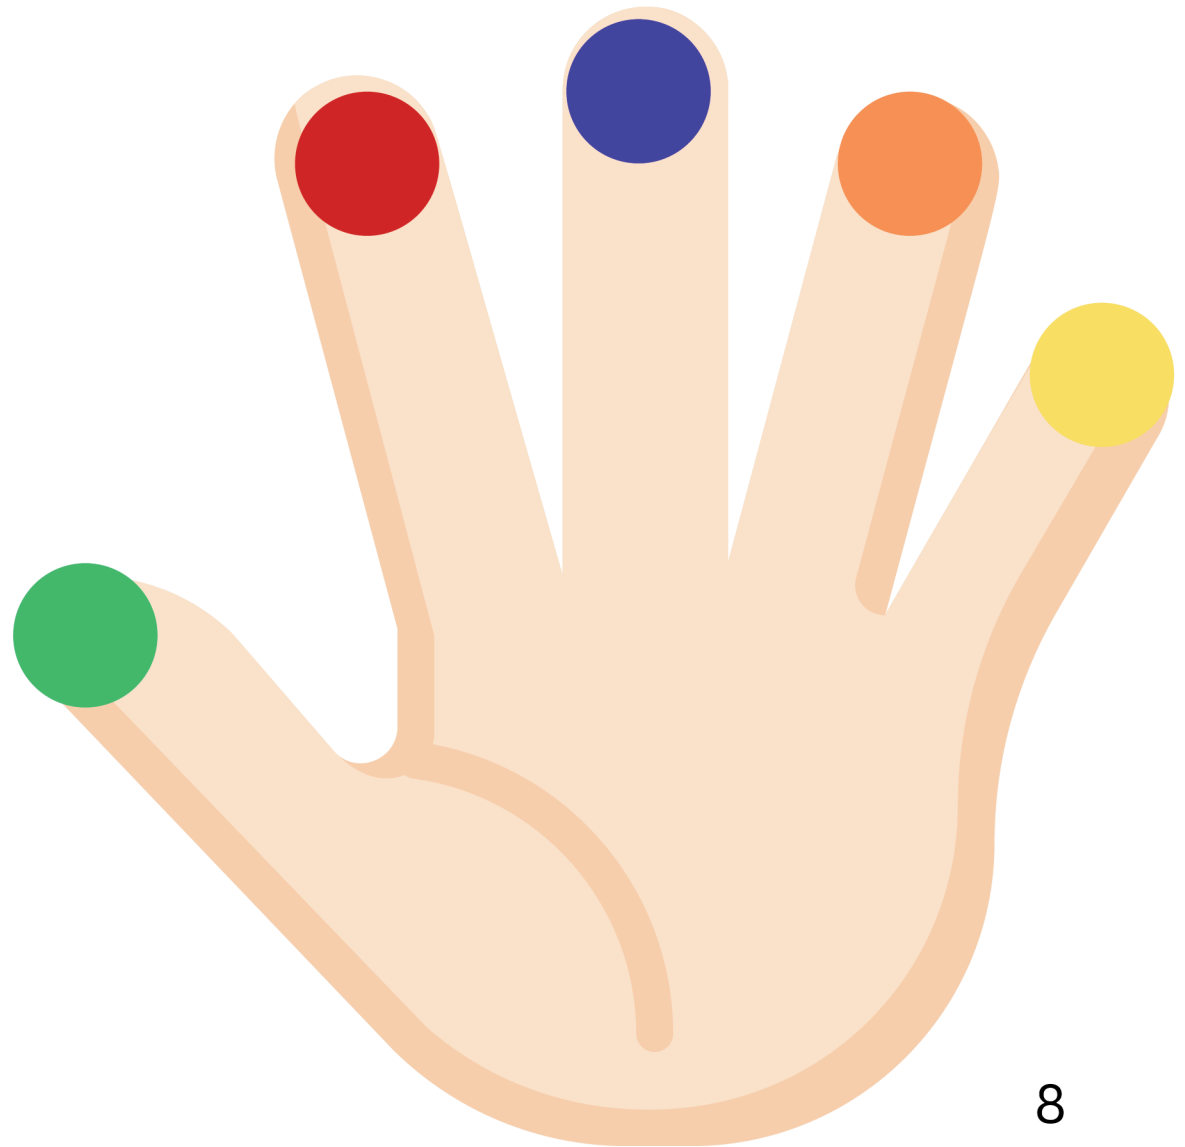

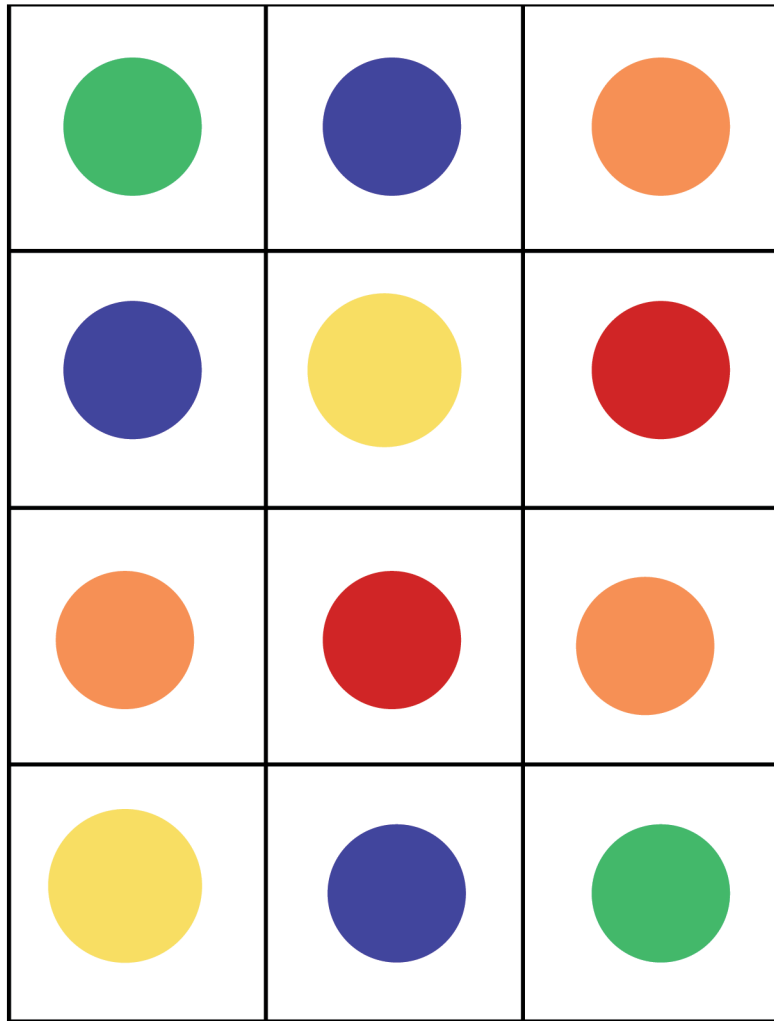

Use both hands to trace the shape together—nice and slow!

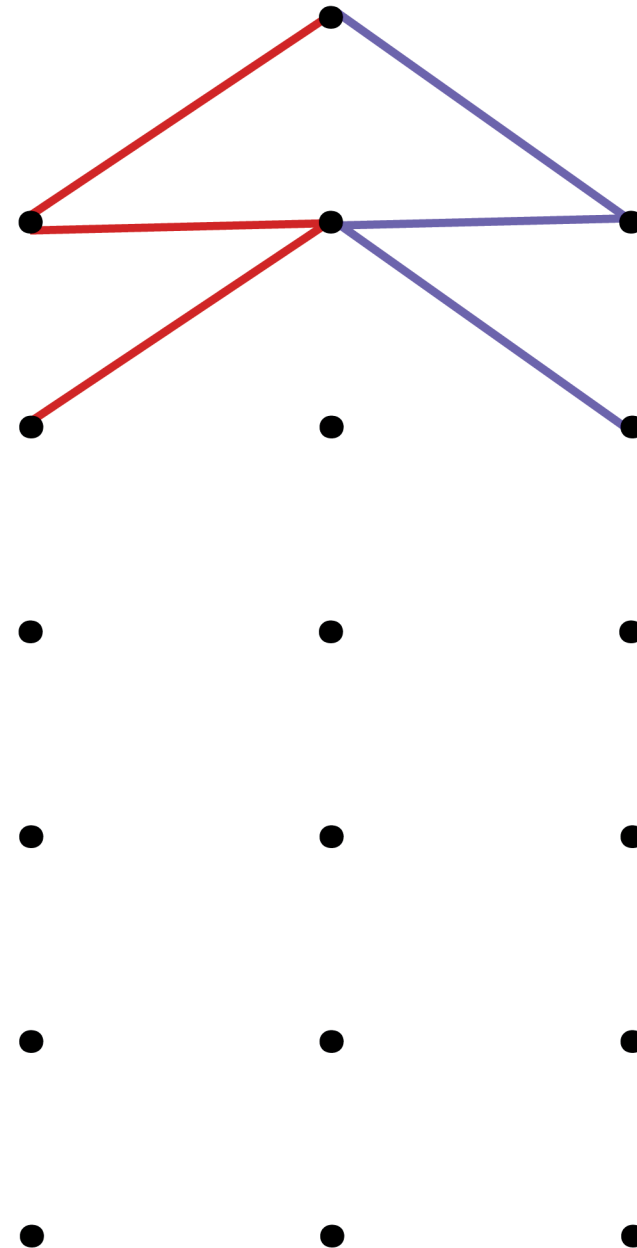

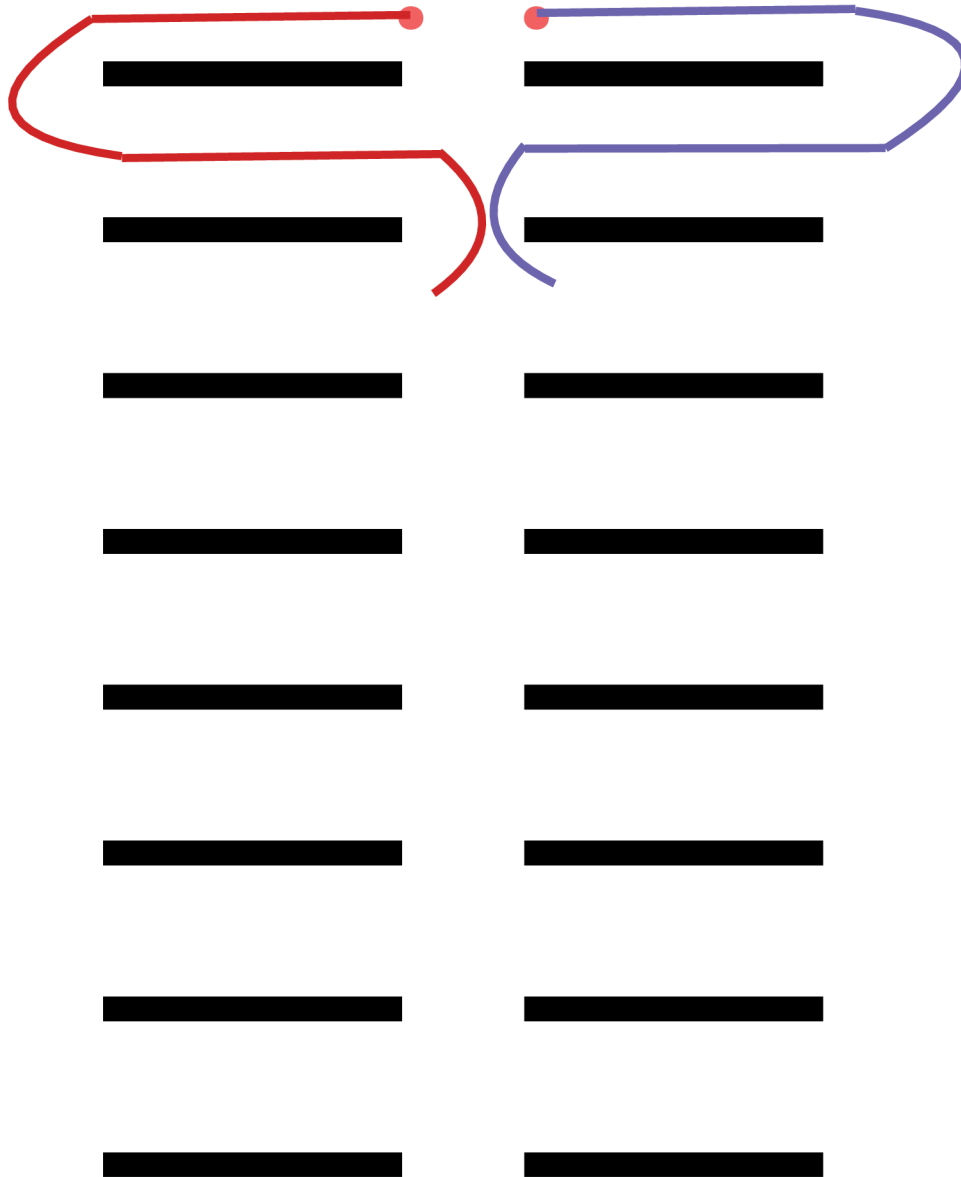

Place one finger on a colored circle in the star, and use the other hand to match it to the same color in the line of circles.

Move your left pointer finger along the grid with colored circles.
Wherever you stop, lift the same finger on your right hand that's resting
on the matching color!

Use both hands to draw along the path without letting the lines touch.

With both hands, draw the shapes shown, following the path carefully.
